Hi Sarah,

I added the locations to the CARE worksheet.

I have also attached pictures of what the location looked like today.

If you look closely, there is 1 RV that is leaking. It seems that a few others might be leaking as well but they have placed either containers/boxes underneath to collect the oil.

As you will notice, there are makeshift repair shops for bikes and motor vehicles. If your team could please check out the area surrounding these stands as they do mechanic work and leave waste behind.

Thank you for your help,

Hi Sarah,

Attached please find videos I took of the various RVs that are located at [7651 Woodman Ave](#) all the way through [13952 Saticoy St.](#)

When I drove by last week I noticed that some RVs were leaking. However, due to today's rain it might be a little difficult to tell from the videos I took.

Would it be possible for the Storm Water and Hazardous team to be sent out and inspect these RVs?

Thank you for your help,

--
